Title : Need to allocate funds for construction of more check dams and for desiltation of water bodies in Sriperumbudur Parliamentary Constituency, Tamil Nadu with a view to conserve and proper drainage of rain water.

SHRI A. KRISHNASWAMY (SRIPERUMBUDUR): In recent unprecedented rainfall in my Sriperumbudur Parliamentary Constituency there is breach of lakes, check dams, logging of water without channel to store in the lakes and ponds or to drain, caused damages to public, private properties, agricultural lands besides wastage of water. This occurred because there is no proper desiltation in lakes, rivers and ponds moreover there is no sufficient check dams in the district.

Therefore I, urge upon the Government of India to allocate funds through NABARD for construction of more check dams wherever necessary and to desilt the rivers, lakes and ponds which will be very useful for agriculture and drinking water purposes.
